Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	<i>Describe customer with 3-4 key characteristics - who are they?</i>	Describe the customer and their attributes here
I'm trying to	<i>List their outcome or "job" they are about - what are they trying to achieve?</i>	List the thing they are trying to achieve here
but	<i>Describe what problems or barriers stand in the way - what bothers them most?</i>	Describe the problems or barriers that get in the way here
because	<i>Enter the "root cause" of why the problem or barrier exists - what needs to be solved?</i>	Describe the reason the problems or barriers exist
which makes me feel	<i>Describe the emotions from the customer's point of view - how does it impact them emotionally?</i>	Describe the emotions the result from experiencing the problems or barriers

Example:

I am a traveler	I'm trying to book flights on my phone	But it takes a long time	Because The website is not responsive and doesn't have a mobile version	Which makes me feel Frustrated
---------------------------	--	------------------------------------	--	--

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	a newly onboarded employee who needs a laptop to start work	get a laptop allocated quickly so I can begin work from day one	I have to send multiple emails to IT and my manager and wait several days	there is no centralized system to raise, track, and approve laptop requests	frustrated and unproductive during my first days at the company
PS-2	an IT support engineer who manages laptop inventory and requests	approve, allocate, and fulfil laptop requests efficiently	I have to manually cross-check emails, spreadsheets, and stock records	there is no unified platform that automates the request-to-fulfilment workflow	overwhelmed and unable to give employees an accurate status update
PS-3	a reporting manager who needs to approve laptop requests for my team	quickly review and approve or reject requests without delay	I only get requests through email or chat with no context, and often miss them	there is no structured, trackable approval workflow with reminders	disconnected from the process and responsible for delays affecting my team
