

ServiceNow-Based Employee Laptop Request Application

Agile Planning Logic | Sprint, Epic, Story & Velocity Breakdown

Core Agile Concepts

Sprint	A fixed period or duration in which the team works to complete a set of planned tasks.
Epic	A big task or project area that is too large to complete in a single sprint. It is broken down into smaller Stories delivered across multiple sprints.
Story	A small, well-defined unit of work that is part of an Epic.
Story Point	A number representing how much effort a Story takes to complete, usually estimated on the Fibonacci scale (1, 2, 3, 5 ...) covering Very Easy, Normal, Moderate and Difficult tasks.

Figure 1: Sprint → Epic → Story → Story Point hierarchy used for this project.

Project Workflow Context

The application automates the end-to-end laptop request process for employees on the ServiceNow platform — from catalog submission through manager and IT approval, fulfillment, and closure. The Agile backlog below is planned across two sprints, mirroring this real workflow.

Figure 2: High-level Employee Laptop Request workflow in ServiceNow.

Sprint 1

Requirement Gathering (Epic 1)

User Story	ID	Story Points
Gathering Functional Requirements	USN1	2
Gathering Non-Functional Requirements	USN2	1

Epic subtotal: **3 Story Points**

ServiceNow Catalog Design (Epic 2)

User Story	ID	Story Points
Creating Laptop Request Catalog Item	USN3	3
Designing Request Form Fields	USN4	3
Configuring Variable Sets	USN5	3

Epic subtotal: **9 Story Points**

Total Story Points in Sprint 1

$2 + 1 + 3 + 3 + 3 = 12$

Sprint 2

Workflow & Approval Automation (Epic 3)

User Story	ID	Story Points
Building Approval Workflow	USN6	5
Configuring Manager Approval	USN7	3
Configuring IT/Asset Approval	USN8	3
Email Notification Setup	USN9	2

Epic subtotal: **13 Story Points**

Testing & Deployment (Epic 4)

User Story	ID	Story Points
Unit & Functional Testing	USN10	3
UAT and Production Deployment	USN11	4

Epic subtotal: **7 Story Points**

Total Story Points in Sprint 2

$5 + 3 + 3 + 2 + 3 + 4 = 20$

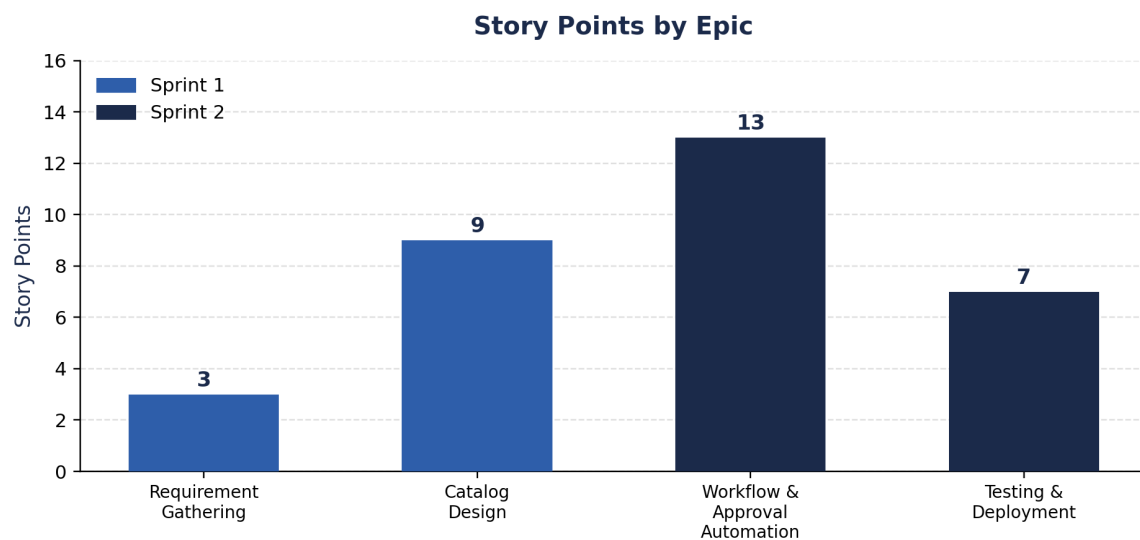

Figure 3: Distribution of Story Points across Epics in Sprint 1 and Sprint 2.

Total Story Points & Team Velocity

Sprint	Story Points Completed
Sprint 1	12
Sprint 2	20
Total	32

Velocity Formula

Velocity = Total Story Points Completed / Number of Sprints

Total Story Points = 12 + 20 = 32

Number of Sprints = 2

Velocity = 32 / 2 = 16 Story Points per Sprint

Your team's velocity for the ServiceNow-Based Employee Laptop Request Application is 16 Story Points per Sprint.
